COMMUNITY PARK WORKDAY REPORT MARCH 14, 2020

Kathleen Johnson posted a Facebook event inviting all DPV residents to attend the March 14, 2020, Community Park Workday on Saturday, March 7th.

The work began at 9 am on Saturday, March 14th. The following residents were present: Greg & Kathleen Johnson, Scott Lynch, Josh Blee & kids, and Nate & Kylie Kaliney & kids (12 total).

The workday objective was to clear as many of the small to medium-sized rocks as possible. Scott volunteered to take most of the rocks to his house and workers loaded them into his van.

Greg organized making a driveway path using the rocks as the border.

Josh provided a metal firepit ring and organized creating a 4-foot wide firepit using some of the rocks.

Kathleen also cleared the lot of garbage... again.

Josh informed the team that he contacted a contractor who came to look at the lot. He will be constructing two construction bids: 1) His crew does the work and 2) We do the work with him as the crew leader. Greg agreed to contact a contractor about trusses for the pavilion and leveling the lot.

The workday ended at about 11:45 am.
